Hello,

We have re-opened and are looking forward to welcoming you back to our clinic! Though dental offices have always had to comply with strict infection control protocols, in response to COVID-19 we are implementing additional safety protocols. Thank you for your patience and co-operation with:

1. Patient screening prior to and at arrival for appointment.
2. Arrival to office within 5 minutes of appointment time.
3. Maintaining distancing in the reception area for essential caregivers and parents of minors, if they are unable to wait in a vehicle or outside the office.
4. Hand sanitizer is to be used at office entry and exit.
5. Limit the number of personal items you bring to the office.
6. Washroom access is restricted, please brush and floss prior to arrival. Our front office staff will be providing you with personalized screening and will go over the above protocols when making your appointment.

Thank you for your support.

Sincerely,

Dr. Margaret Sutherland
Dr. John Armstrong
